If at any time your service is disconnected for nonpayment, a \$50.00 disconnect and a \$50.00 reconnect fee will be charged. If a worker is sent out to disconnect your utilities and the bill is paid in full at that time, a \$50.00 disconnect fee will still apply. If the utilities are disconnected for non-payment, the account must be brought current and all fees paid before utilities will be reconnected. (Resolution 10102018-01).

In the event any balance is not paid as agreed, the undersigned agrees to pay a collection fee not to exceed 40% of the unpaid balance. In the event a lawsuit is brought against you to collect the unpaid balance, the undersigned further agrees to pay court costs and reasonable attorney fees in addition to the collection fee. The undersigned further authorizes us or our agent to call you at any number you provide or at any number at which we or our agent reasonably believes we can contact you, including calls to mobile, cellular, or similar devices for any lawful purpose. The undersigned also agrees to any fee(s) or charge(s) that may be incurred for incoming calls from us or our agent, and/or outgoing calls to us or our agent, to or from any such number, without reimbursement.

UNDERGROUND GAS PIPE MAINTENANCE AND CALL 811 BEFORE YOU DIG

Dear Customer:

You are receiving this notice because you have a natural gas line running underground from your gas meter to a structure or a gas-burning appliance. As your natural gas distributor, Levan Town Gas Department, in accordance with Federal Regulations, is making you aware of certain safety recommendations regarding your underground natural gas piping.

Levan Town Gas Department operates our gas system with an emphasis on safety. We are required to design, operate and maintain our underground natural pipeline system in accordance with prescribed federal safety standards. The gas system does not maintain the gas piping downstream of the gas meter. This is the responsibility of the customer who owns the piping. If the buried pipe is not properly maintained, it may be subject to corrosion (if the piping is metallic) and/or leakage.

To insure the continued safe and reliable operation of these lines, the buried piping should be checked periodically. You (or the building owner) are advised to contract a licensed plumber or heating contractor to assist you in locating or inspecting your buried gas piping. If any unsafe condition is discovered, repairs should be made ASAP. The yellow pages are an excellent source of listing of licensed plumbers and heating contractors. Levan Town Gas Department can refer you to licensed plumbing and heating contractors.

If we can answer any questions regarding this notice, please give us a call at 435-623-1959. (You may disregard this notice if you no longer have buried piping beyond the gas meter).

Should you plan to dig around buried gas piping, the piping should be located in advance, and all digging should be carefully done by hand in the vicinity of the pipe. **Utah law requires you to contact Blue Stakes by simply calling 811 two days in advance of digging in order that all utility owned buried pipe and cable may be located. This is a free service.**

Please be advised that under state law you will be billed by all 3rd party entities that are required to be notified in the event of a gas line incident. You can be billed up to \$5,000.00 per party for damage prevention with a maximum civil penalty of \$100,000.00 per excavation. If an excavation fails to provide notice of an excavation, they may be fined an additional \$500.00 along with the previously listed penalties.

Thank you,

Levan Town
